

Isuzu D-Max Utility with Arctic Trucks Pack

Arctic Trucks UK and Isuzu UK are pleased to bring you a solution to meet the needs of the fleet and professional end user market but without the price tag of the Utah-derived official AT35 product.

Designed to provide all the practical benefits of the official AT35 model but without the levels of specification and luxury which are surplus to requirements for the cost-conscious fleet manager / Professional end user.

The Arctic Trucks utility upgrade kit includes:

315/70 R17 Nokian Rotiiva Tyres

17 x 10 - 25mm offset Arctic Truck alloy wheels (silver)

30mm body lift / 20mm suspension lift

Arctic Truck mud flaps

Replacement front and rear dampers

Arctic Truck side steps

Fender package to front and rear
(painted rears and part painted front part textured front to bumper match)

Arctic Truck rear receiver hitch bar

Arctic Truck locking wheel nuts
