

Protect your pride and joy with Tracker™

Vehicle theft affects thousands of people each year, but the impact is wider than just losing your vehicle.

There are both financial and emotional consequences:

- Loss of an irreplaceable vehicle
- Loss of insurance excess
- Loss of no-claims bonus
- Vehicle hire costs
- Insurance settlement delays
- Insurance premium uplift
- Cherished plate re-registration delay
- Personal inconvenience and distress

Why Tracker™?

- Market leading stolen vehicle recovery service provider
- The only tracking company to have a unique formal agreement with all UK police forces who track and recover for Tracker
- Trusted for over 30 years
- All products accredited by Thatcham
- Secured by Design Official Police Security Initiative
- Over 1 million Tracker™ devices fitted
- Over £590 million worth of stolen vehicles returned to their rightful owners

S5 Plus

S5 Plus meets the vehicle insurance requirements by operating to the Thatcham Category S5 standard. S5 Plus is designed to identify whether a driver is authorised to use the vehicle via driver tags. If a tag is not present when the vehicle is started, an alert will be generated and you will be contacted. S5 Plus combines VHF with GPS and GSM technology, making this system far more resilient to jamming attacks.

This premium stolen vehicle recovery system is compatible with all hybrid and electric cars offering features including unauthorised driver and vehicle movement alerts as well as vehicle battery disconnection alerts. Tracker Touch, an easy-to-use app is available. S5 Plus offers additional features via the Tracker Touch app - features such as geofence alert, system health check and vehicle battery health.

Features of S5 Plus

- 4-way location tracking with our military-grade patented VHF and unique MESH technology; also incorporates GPS and GSM location tracking allowing the police to track stolen assets even when concealed in metal containers, lock-ups or underground car parks
- Unauthorised driver alert with Driver ID tags
- Compatible with all hybrid and electric cars
- Vehicle battery disconnect alert
- Back-up battery in the event of theft
- Nationwide support from all UK police forces
- Unique tracking that is not affected by criminals' GPS/GSM signal jammers
- Europe-wide coverage
- Access to Tracker Touch app
